

State of California
Department of Fish and Game
Application for Initial Private Lands Wildlife Habitat
Enhancement and Management Area License

License Period 20__ - 20__

Name of PLM Property_____

Applicant's Name_____Telephone(____)_____

Mailing Address_____

Street Address_____

County(ies) of Management Area_____Size of Area (acres)_____

Application must be accompanied by an annual report which must contain but is not limited to:

1. A legal description and four (4) original USGS quadrangle maps (or equivalent maps) showing the area's boundaries, access roads, and any public lands within and/or adjacent to the Private Wildlife Management Area;
2. A current county assessor's parcel map identifying the area's adjoining landowners;
3. An estimate of the wildlife and habitats present within the Private Wildlife Management Area, including an indication of animal distribution and habitat condition based on the California Wildlife Habitat Relationships Database System;
4. A statement of management objectives;
5. A detailed description of proposed management actions that are intended to achieve the management objectives;
6. The county General Plan land use designation for the Private Wildlife Management Area;
7. A copy of the notice of intent to participate in the program published in a paper of general circulation in the area affected and a copy of the certified letters and applications sent to each adjoining landowner notifying them of intent to participate in the program;
8. A check in the appropriate amount (see following page). The nonrefundable fee is to pay the Department's costs for management plan review and Department approval; payment of the fee does **not** constitute acceptance into the program.

*All applicants/owners must sign below. If more space is needed please use reverse for signature area. If the applicant is not the owner/fee title holder of the property, a signature is also required below by **all** owners/fee title holders of the property. By signing this license the owners/fee title holders agree to allow the applicant to fulfill the terms and conditions of the license, and certify that all habitat work will be completed as agreed. Lack of compliance may result in reduced authorized harvest and/or removal from the program.*

_____ Signature of Applicant	_____ Title (owner, manager, etc.)	_____ Date

Fee Schedule

(A) \$1,530.50	less than 5,000 acres
(B) \$2,204.25	5,001 to 10,000 acres
(C) \$2,571.50	10,001 to 15,000 acres
(D) \$2,938.75	greater than 15,001 acres

Additional species specific requirements:

Deer - If either-sex tags are used, a maximum allowable number of forked-horn-or-better bucks to be harvested must be identified. No deer hunting past November 30 unless special circumstances exist. No deer hunting past December 31.

Elk - Licensees requesting significant tag quota changes must do so prior to December 1 so the Department can adequately evaluate and disclose the effects of significant changes in the appropriate environmental document. Elk harvest may be permitted in the second license year providing the initial license was approved prior to September 1 of the first year. Any break in licensing for one year or more will require an initial license application with initial season restrictions.

Antelope - Existing PLM's that have not identified antelope as a managed species in the management plan, but now request to hunt antelope, must first amend their management plan and must wait one year before antelope hunting will be allowed. The number and type of antelope tags issued may not be determined until after the summer antelope census is completed (usually in mid-July). Applicants may request specific numbers and/or types of tags but there is no guarantee that what they request will be issued. Total tags allocated to PLM's within the established public antelope hunting zones will not exceed ten (10) percent of the total tags issued for public antelope zones. In order to meet management objectives, doe harvest on PLM's shall be determined independently from the doe harvest for public antelope zones. No person may kill more than one buck antelope per year.

Upland Game - During the initial license year, upland game seasons shall correspond to general public seasons for the appropriate species. Variations in length and/or timing of the PLM upland game season(s) may be allowed starting the second continuous year of participation in the program. Any break in licensing for one year or more will require an initial license application with initial season restrictions. Bag limits for upland game species shall be consistent with bag limits imposed on public hunters during general seasons.

Waterfowl - Waterfowl season lengths and bag limits are established in conformance to Federal Regulations. The Fish and Game Commission has no authority to modify waterfowl season lengths and bag limits; PLM's proposing to harvest waterfowl must do so within Federal regulations.
